

CURTIS FURNITURE- RHINEFIELD HOUSE

Curtis fine contract furniture have recently been involved with the refurbishment of the Rhinefield House hotel - part of Handpicked Hotels - in the New Forest, Hampshire.

Curtis' involvement in the project was based around manufacturing, supplying and fitting their bedroom furniture to 16 luxury bedrooms at the Hotel, including desks with integrated plasma surround incorporating both fixed and motorised hidden screens, and upholstered padded headboards. The bridal suite (shown right with its ceiling high feature headboard) epitomises elegance with filmy sheer, drapes framing the bed.

All pieces shown are constructed using walnut veneers with solid walnut edging to Curtis' usual high standards by accomplished craftspeople at its Leeds factory. The furniture incorporates dovetail joints to drawers and contract spec hinges and runners for durability and smoothness. It is also pre-cut for electrical sockets and appliances.

Curtis also offers seven standard ranges, complementing its bespoke service. Everything in the range is competitively priced, and buyers can specify delivery and installation services if required.
